Linkedin: <https://www.linkedin.com/in/ahmedaminedoudech/>

### Profile

Software Developer specializing in modern web, backend, and AI-driven system development. Skilled in TypeScript, JavaScript, Node.js, Bun, and Spring Boot, with hands-on experience building scalable backend services using Express.js, Fastify, and Elysia.js. Proficient in React, Vue.js, and Next.js for high-performance frontend development, and familiar with Flutter for cross-platform mobile apps. Recently focused on integrating AI capabilities, including OpenAI APIs, Retrieval-Augmented Generation (RAG), and MCP-based automation, to build intelligent, production-ready applications.

### Experience

#### SOFTWARE ENGINEER | JETFI SYSTEMS GMBH — Germany (Remote) (July 2025 – Oct 2025)

- Contributed to the development and enhancement of an AI automation platform, working on feature implementation, debugging, and improvements.
- Collaborated with the engineering team under strict quality and security guidelines.

#### SOFTWARE DEVELOPER INTERN | PROXYM-IT — Sousse, Tunisia (Feb 2025 – Jun 2025)

- Developed a connected restaurant application featuring real-time chat messaging and an immersive VR dining experience, enabling restaurants to enhance customer engagement and offer innovative digital interactions.
- Technologies used: Flutter | Spring Boot | Hibernate ORM | PostgreSQL | AR Core | OneSignal SDK | Docker

#### SOFTWARE ENGINEER | SOLUGENT — Sousse, Tunisia (Remote) (Nov 2024 - May 2025)

- Collaborated with a startup team to develop an AI-powered application designed to streamline the tendering process and assist businesses in successfully securing their first tender opportunities. The project is currently in active development, with ongoing efforts focused on enhancing the user experience and simplifying the setup process.
- Technologies used: Node.js | React.js | Next.js | Prisma ORM | PostgreSQL | Software Architecture | Docker

#### FULL-STACK WEB DEVELOPER INTERN | JOODLAB — Sousse, Tunisia (Remote) (Jun 2024 – Aug 2024)

- Developed and maintained both web platforms and mobile applications for a variety of clients.
- Technologies used: Vue.js | Turborepo | TypeScript | Fastify | Node.js | PostgreSQL | Prisma ORM | Docker

#### FREELANCE — (Remote) (2020 - Present)

- Developed and maintained both web platforms and mobile applications for a variety of clients.
- Technologies used: Flutter | React.js | Vue.js | TypeScript | Express.js | Fastify | Node.js | PostgreSQL | Prisma ORM | Docker | Spring Boot | etc.

## **Education**

**BACHELOR DEGREE IN COMPUTER SCIENCE Higher Institute of Applied Science and Technology of Sousse — 2022-2025**

**TECHNIQUE BACCALAUREATE Lycée 2 Mars 1934, Sousse — 2022**

## **Technical Skills**

- TypeScript / JavaScript
- Spring Boot
- Flutter
- Turborepo
- React.js
- Vue.js
- Next.js
- tRPC
- Node.js
- Bun
- Fastify
- PM2
- MCPs
- tailwindCSS
- framer-motion
- PostgreSQL
- Hibernate ORM
- OneSignal
- AR Core
- Prisma ORM
- Drizzle ORM
- Express.js
- ElysiaJS
- OpenAI API
- Gemini API
- RAG

## **Languages**

- Arabic (Native)
- English (Bilingual Proficiency)
- French (Conversational)
- German (Basic)
